PROFESSIONAL SUMMARY

Motivated B.Sc. IT graduate with hands-on experience in data analytics, visualization, and database management. Skilled in tools like Excel, SQL, Python, Tableau, and Power BI for transforming raw data into clear, actionable insights. Completed multiple projects and internships demonstrating strong analytical thinking, attention to detail, and problem-solving abilities.

PROFESSIONAL EXPERIENCE

- Cognifyz Internship Program**  11/2025 – 12/2025
- **Basic Data Insights:** Focuses on analyzing cuisines, cities, price ranges, and online delivery to understand general restaurant trends and performance.
 - **Intermediate Analysis:** Involves exploring deeper patterns like rating distribution, cuisine combinations, geographic clustering, and restaurant chains for comparative insights.
 - **Advanced Analysis:** Emphasizes text reviews, votes, and relationships between price range and services to uncover customer behavior and business strategies.

EDUCATION

Bachelor of Science in Information Technology (2022 – 2025)
CGPI : 8.14
Relevant Coursework: Database Management, Statistics, Data Visualization.

SKILLS

- **Technical Skills**
Excel (Advanced), MS SQL, Python, Pandas, NumPy, Tableau, Power BI, MS Word, MS PowerPoint, HTML, CSS
- **Analytical & Organizational Skills**
Data Cleaning, Reporting, Dashboarding, Data Visualization, Documentation Management, Business Analysis Support, Trend Analysis, Computer Networking
- **Soft Skills**
Communication, Coordination, Problem Solving, Time Management, Adaptability, Attention to Detail, Quick Learning

PROJECTS

- Road Accidents Analysis**  05/2026 – 06/2026
Tools Used: Python
 - Cleaned and transformed road accident datasets using Python and Pandas for analysis.
 - Conducted exploratory data analysis (EDA) to identify accident hotspots, trends, and key risk factors.
 - Built visual reports and dashboards to communicate actionable road safety insights.
- Sales Market Report**  07/2025 – 08/2025
Tools Used: MySQL Workbench, Tableau
 - Cleaned, structured, and transformed raw sales data for accurate reporting.
 - Designed interactive dashboards to present key trends and metrics in a clear, timely manner.
 - Automated reporting workflows, demonstrating efficiency and attention to detail.
- Flipkart Sales Analysis**  06/2025 – 07/2025
Tools Used: Excel, Dashboarding tools (Excel features like PivotTables/Charts)
 - Prepared structured datasets and created dashboards to track key performance indicators.
 - Identified trends and patterns, improving understanding of business performance.
 - Applied documentation and reporting skills for clear communication of insights.
- Superstore Sales Dashboard**  12/2025 – 12/2025
Tools Used: Excel, Power BI
 - **Retail Performance Dashboard:** Built an interactive Power BI dashboard to track \$2.3M in sales and profit trends, using visuals like bar charts and maps to identify top-performing regions and product categories.
 - **Data-Driven Forecasting:** Used historical data to create a 15-day sales forecast and identified key growth drivers, helping to improve inventory planning and business decision-making.
